## Education

Expected in 07.2022

Bachelor of Science, Computer Science, Rayat Bahra University - Chandigarh, INDIA

05.2016

High School Diploma, Lovely Professional University - Jalandhar, INDIA

## About

I'm Sahil. I'm a student living in Beas, Punjab. I am a fan of design, web development, Trading and gaming. I'm also interested in entrepreneurship and technology.

As I turned 18, I open up brokerage account and started practicing there and see ups and downs of the market. Since 2018, I am into intraday and swing trading. I created a lot of scripts in python that helps me to improve my trading style and also I made several semi-automatic bots for making my trading faster.

## Skills

Stock market understanding  
Intraday trading  
Technical analysis  
Price action recognition

Version Control Systems: Git, Github  
Scripting Languages: PHP, Python, Javascript  
Front-End Skills: HTML, CSS  
User Experience Design

## Work History

06.2016 - 04.2018

**Front-End Web Developer**  
(Freelancer)

As a Web Developer and Designer. I am specialize in Producing high quality responsive websites and exceptional user experience.

The work I provide is of highest quality, fully responsive, and tested in a wide range of devices. I take great care to ensure each project is well-documented and easily maintainable so you can enhance a website as your company grows.

Often front-end development of a website is overlooked, but being the part of your project that combines design, back-end development and the layer that your users interact with, from my experience, it is the most important to get right.
